SOLAR house- system for 230 volts AC
include 10 lamps 12 Volt with switches.
for example for TV/DVD, fans, radio, music and much more

OFFER No: 190215

EXPORT special rates

SOLAR house - system for 230 volts AC

include 10 lamps 12 Volt with switches.
for example for TV/DVD, fans, radio, music and much more,
Article-No. 3800-230-12.

Consisting: two pieces of high solar modules, solar charge controllers.
Special cable set with fuse and battery terminals for fast wiring with 12 volt outlet.
1 piece sine wave inverter 12 volt input. Output 230 volts AC with a rated power of 350 watts and a peak power of 700 watts. All equipment such as computer, printer, TV, DVD player, fan, radio, music system work very well.

10 pieces High Performance LED light, bright as a comparable 60 watt Bulb, with per 60 pieces ultra bright white LEDs (3000 lux at a distance of 30 cm or 100 lm / W) **30 m Round Cable** 2 x 0.75 mm², prefabricated cable with fuse holder and Spare fuse. Each lamp can be turned on separately, with 10 special switches. In addition, another material such as installation Boxes, of the cables and terminal strips. In addition, another cable 10 m Round Cable 2 x 1,5 mm² from the solar module to the solar charge controller. Easy installation for a 12 Volt car battery on site.

1-9 Units	798,00 EURO / pc
10-49 Units	788,50 EURO / pc
from 50 items	764,80 EURO / pc

The above prices are export prices: net plus Shipping.

Solarlicht für die Welt®

WELTLICHT.DE · Kramer-Kray-Weg 10 · D-22399 Hamburg

Solar energy
for a home to 20 rooms.
2,4 kW solar power system

Hamburg

OFFER No. 290813

Special export prices

2,4 kW solar power system with inverter 230 volts AC.
Peak of the sine wave inverter is 10 kW
and 5 kW continuous power.

12 pieces of high power solar modules monocrystalline

4 pieces of high power charge controller 30 amps at
Nominal voltage of 24 V

1 piece sine wave inverter 24 volt input from the battery.
Output AC 230 Volt 50 Hz with an output of
5 kW (5.000 watts) and a peak power
of 10 kW (10.000 watts)

Installation materials

Solar cables are prepared
and packaging.

Total net export

9.264,50 EURO

The prices are export prices: Net plus shipping.
The offer has 3 months validity.
Delivery and payment by appointment.

WELTLICHT.DE · Kramer-Kray-Weg 10 · D-22399 Hamburg

Special solar power system for hotels and luxury houses.

The special feature is that you do not notice
if the power is interrupted from the power plant.
If the current is off, it will automatically
switch to solar.

Hamburg

OFFER No. 230316

Special export prices

1.2 kW solar power system with inverter 230 volts AC.
Peak of the sine wave inverter is 6 kW
and 3 kW continuous power.

12 pieces of high power solar modules 100Wp monocrystalline
a) 100,- € 1.200,00 EURO

2 pieces of high power charge controller 30 amps at
Nominal voltage of 24 V
a) 180,- € 360,00 EURO

1 piece sine wave inverter 24 volt input from the battery.
Output AC 230 Volt 50 Hz with an output of
3 kW (3.000 watts) and a peak power of 6 kW (6.000 watts)
Special application with automatic AC switching through and
Battery charger technology
3.216,50 EURO

Material: High quality solar cable UV and heat resistant with
2 fold insulation to the solar modules
210,00 EURO

Material: High-quality solar cables in 16 mm², 25 mm² and 50 mm² for Connection of the batteries, and to the Sin wave inverter. All cables with fuses for the batteries for interconnection to 24 volts.

270,00 EURO

Pre-wiring of the solar system

for quick and easy assembly on site with the waterproof connectors.
Cable with battery terminals prepared for batteries and solder lugs for the sin wave inverter.
Fuses 125 amperes prepared between the batteries and also pre-wired.

420,00 EURO

Wiring diagram with drawing, images for mounting and detailed description. Documentation of the installation. Export packaging on EURO pallet.

100,00 EURO

Total net export

5.776,50 EURO

The prices are export prices: Net plus shipping.
Delivery and payment by appointment.

Auszeichnung

Die Vereinten Nationen haben für die Jahre 2005-2014 die Weltdekade „Bildung für nachhaltige Entwicklung“ ausgerufen. Für die Beteiligung an dieser Dekade wird

WELTLICHT.de / Dipl.-Ing. Ulrich Heitfeld

bezogen auf das Projekt

„WELTLICHT – Solarschulen“ fördern nachhaltige Entwicklung in Afrika

durch das Deutsche Nationalkomitee der UN-Dekade „Bildung für nachhaltige Entwicklung“ ausgezeichnet. Es wird damit als Beitrag zur Allianz „Nachhaltigkeit lernen“ anerkannt.

Die oben genannte Initiative darf in den Jahren

2012/2013

den Titel

**Offizielles Projekt der
UN-Weltdekade 2012/2013
Bildung für nachhaltige Entwicklung**

tragen.

Die Vereinten Nationen haben die UNESCO weltweit mit der Umsetzung dieser Dekade betraut.

Im Namen der Deutschen UNESCO-Kommission und des Nationalkomitees für die Dekade „Bildung für nachhaltige Entwicklung“ gratulieren wir zu Ihrem herausragenden Projekt.

Minister a.D. Walter Hirche
Präsident der Deutschen
UNESCO-Kommission

Dr. Roland Bernecker
Generalsekretär der Deutschen
UNESCO-Kommission

Prof. Dr. Gerhard de Haan
Vorsitzender des
Nationalkomitees
